DETAILED ACTION

Allowable Subject Matter

Claims 1-5, 7, 10-11 and 14 are allowed.

The following is an examiner's statement of reasons for allowance: the amendment filed on November 4, 2008 placed the independent claims 1 and 10 in allowable status and claims 2-5, 7, 11, and 14 are allowable by virtue of dependency. The examiner carefully reviewed applicant's amendment and updated the search string and found the independent claims to overcome the newly found prior arts of Heschel (US 6,818,464 B2) and Bhandarkar (US 2004/0086011 A1). Heschel teaches a cap produced for the use in optical subassembly using semiconductor processing method. However, the inner cavity of the cap disclosed by Heschel does not teach a reflector. The prior art of Bhandarkar teaches a submount having a cap mounted on the submount wherein the reflective wall of the cavity reflects the signal. However, Bhandarkar does not teach the--*the optical signal emerges in the reflected direction from the second surface of the submount wafer portion--*. Bhandarkar teaches the signal is coupled with an waveguide 339 but does not teach or reasonably suggest the reflected signal emerges through the **submount surface where the edge emitting laser is mounted on**. None of the prior art of record reasonably teaches a motivation to combine any combinations of the prior art with all of the recited structures of claim 1 and 10. Thus, claims 1 and 10 have been amended and overcome the old and the new searched prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
